

SANJEEVAN ENGLISH MEDIUM SCHOOL

COMPUTER CLUB

Computer science, the study of computers and computing, including their theoretical and algorithmic foundations, hardware and software, and their uses for processing information. The discipline of computer science includes the study of algorithms and data structures, computer and network design, modeling data and information processes, and artificial intelligence. Computer science draws some of its foundations from mathematics and engineering and therefore incorporates techniques from areas such as queueing theory, probability and statistics, and electronic circuit design. Computer science also makes heavy use of hypothesis testing and experimentation during the conceptualization, design, measurement, and refinement of new algorithms, information structures, and computer architectures.

Objectives

- An ability to apply knowledge of computing and mathematics appropriate to computer science
- An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
- An ability to design, implement, and evaluate a computer-based system, process, components, or program to meet desired needs
- An ability to function effectively on teams to accomplish a common goal
- An understanding of professional, ethical, legal, security and social issues, and responsibilities
- An ability to communicate effectively with a range of audiences
- An ability to analyze the local and global impact of computing on individuals, organizations and society
Recognition of the need for and an ability to engage in continuing professional development
- An ability to use current techniques, skills, and tools necessary for computing practice

Activities in Computer club

Sr. No	Month	Activities
1	June	Identify the parts of Computer and their uses
2	July	Learn Paint Applications like MS Paint, Tux Paint. House image, Computer Parts
3	August	Making Excel sheets
4	September	Making database file
5	October	BASIC 256 Programs
6	November	Making reports in MS Word
7	December	Making PowerPoint presentations

8	January	Image Editing using GIMP
9	February	Scratch Programming
10	March	Using Internet
11	April	Cyber Security
