**Art Club**

The Art Club focuses on the expression and the qualitative preoccupation of students. with various creative activities, promoting, thus, the expression and creativity, and the enhancement of imagination. for that purpose in our school we arrange the art club.

**OBJECTIVES**

- 1) Many people usually use the term 'art' to refer exclusively to the art of painting. Nevertheless, our club combines painting with hand makings, expeditions (museums, galleries), excursions, and also meetings with artists.
- 2) At the workshops of the club, one can discover hidden talents of oneself, and also escape from the daily routine!
- 3) The topics of the art club are usually related to particular subjects, mainly contemporary, such as Christmas, Halloween, Carnival, and Easter. Moreover, at the same time, it combines its subjects with actions and events that take place at the University.
- 4) Based on the promotion of different cultures and the multiculturalism, we are attempting to explore and promote customs and traditions of other countries and civilizations, with relevant topics at our workshops, such as the creation of dreamcatchers.

**EVENTS**

1. Some of the topics, which we have dealt with so far, are among others the following: dreamcatchers, decorations of bottles, beverage coasters, handmade cards, ornaments about contemporary themes
2. The topics of our workshops, the places for our expeditions, and the student to cooperate with, are enriched each semester.
